### **EDUCATION**

<b>B.Tech Computer Science and Engineering</b> , Gyan Ganga Institute Of Technology & Sciences	8.42 /10	2021- 2025
XII, Higher Secondary School, Little World School (CBSE)	77.0/100	2020-2021
X, Secondary School, Little World School (CBSE)	73.2/100	2018-2019

#### **SKILLS**

Programming Languages: C and C++ (Proficient), JavaScript (Intermediate), Python and Java (Basics)

Web Technologies: HTML5, CSS, SAAS, Tailwind, React.js, Node.js, Express.js, Mongo DB, SQL, Rest API, Web Socket,

CI/CD, AWS, EC2, S3, IAM

Version Control Tools and IDE: Git, Github, Visual Studio Code

Course Work: Database and management system, Object-Oriented Programming, Software Development

Computer Networks, Operation Systems, Data Structures and Algorithms

Soft Skills: Collaboration, Communication, Planning, Teamwork, Time Management, Leadership

#### **PROJECTS**

### Swaad Safari - Online food ordering and delivery platform.

- Developed a dynamic restaurant listing and menu display system with robust filtering options and dietary preferences distinction.
- Designed and implemented an admin panel for secure restaurant and menu management, facilitating data upload and updates.
- Integrated secure cart functionality and payment gateway for seamless online transactions, catering to both online and offline stores.
- Implemented JWT-based user authentication and authorization, ensuring secure access to profiles and data, with bcrypt for
  password hashing.
- Tech Stack Used: React, Node.js, Express, MongoDB, React Router, JWT, bcrypt

# Streamify - Personalized movie recommendation website

- **Developed a personalized movie recommendation engine** using GPT-3.5 and TMDB data to provide tailored content suggestions based on user preferences and viewing history.
- Implemented a responsive and intuitive UI with React.js, ensuring a seamless user experience across various devices.
- Built a robust backend with Node.js and Express.js to handle API requests, manage user data, and integrate with TMDB and OpenAI services.
- Added user-centric features such as watchlists, rating functionality, and comprehensive search options to enhance the overall user experience.
- Tech Stack Used: React.is, Node.is, Express.is, TMDB API, OpenAI GPT-3.5

### **News Flow - Real-Time News Forecasting Website**

- Developed a real-time news forecasting website that aggregates news from various sources and displays them dynamically.
- Implemented a user-friendly UI using HTML and CSS to ensure an intuitive and responsive design.
- Utilized JavaScript and Axios for API calls to fetch and display real-time news data.
- Added features for filtering news based on dates and categories to enhance user experience.
- Tech Stack Used: HTML, CSS, JavaScript, Axios

# **ACHIEVEMENTS & EXTRA-CURRICULAR ACTIVITIES**

- 1. Programming Essesntials in C++ (CISCO)
- 2. Solved over 400+ problems on Leetcode And Codestudio
- 3. Cisco Certified Network Associate and AWS Cloud Foundation Certified
- 4. MERN Stack Development, AWS
- 5. Student Ambassador for Hyperledger India Student Chapter Society
